

# *Amelanchier x grandiflora*

## ‘Autumn Brilliance’

### Apple Serviceberry

- 20 to 25 feet , spreads 15 to 25 feet
- Full sun to part sun
- Prefers moist well-drained soil
- Pink buds open to white flower in spring
- Green berries turn to magenta and finally mature to purple in early summer. Edible berry.
- Brilliant orange-red foliage in fall.
