

Aronia arbutifolia *syn. Photinia pyrifolia* Red Chokeberry

- 6 to 10 tall
- 4 to 8 feet wide shrub with an upright habit
- Partial sun to full sun
- Adapted to many soil types. Wet to dry soils.
- Small white flowers in spring
- Showy red berries appear in late summer and persist into winter. The berries have an astringent taste initially becoming palatable to birds after frost.
- Scarlet, orange-red fall foliage color
