

Viburnum nudum 'Winterthur' 'Winterthur' Smooth Witherod

- 6 to 8 feet tall
- Spreads 6 to 8 feet
- Sun, part shade
- Average, medium to wet well-drained soil
- Clusters of white flowers in June
- Berries change color as they ripen, pink to blue to purplish black
- Lustrous, dark green leaves turn burgundy in fall

Needs another cultivar such as *Viburnum* straight species for cross pollination.
