

Cornus sericea 'Arctic Fire'

a.k.a. *Cornus sericea* 'Farrow'

(Dwarf) Red Twig Dogwood

- 3 to 4 feet tall x 3 to 4 foot spread
- Sun/part shade
- Wet to average soil
- White flowers in spring
- White berries ripen July to September
- Beautiful red branches brighten winter landscape (branches are green in summer)
- New growth has brighter color, so cut out older stems in late winter
