May - June

Amsonia hubrichtii

Thread-Leaf Blue Star

- 24 to 36 inches tall
- 18 to 30 inches spread
- Full sun to part shade
- Dry to average, well-drained soils
- Drought and clay tolerant, but prefers fertile and rich soils
- Pale blue flowers mid to late Spring
- Graceful and long lived with very fine foliage, turns bright yellow in Autumn
- Naturally occurs in Oklahoma and Arkansas; it is a rare species in the wild
