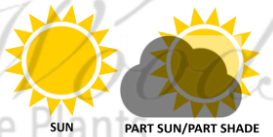
May - June

Phlox glaberrima 'Morris Berd'

'Morris Berd' Smooth Phlox



- 18 to 24 inches tall and wide
- Full sun to part shade
- Average to wet, well-drained soils
- Tolerates clay and occasional floods
- Rosey-pink flowers with some white centers in late spring to early summer
- 'Morris Berd' is a semi-compact, disease resistant variety
- Species naturally occurs from Virginia, south to Western Florida and west to the Mississippi River
