

Viburnum cassinoides 'Lil Ditty'

'Lil Ditty' Dwarf Witherod

- 1 to 2 feet tall
- 1 to 2 foot spread
- Full sun to part shade
- Prefers average to moist, well-drained soil but is adaptable to many soils
- Prolific clusters of small fragrant creamy white flowers in Spring
- Berries turn from rosy pink to blue to black throughout the season. 'Lil Ditty' is more likely to produce berries in a mass planting
